

## ACLS Renewal Options

The Continuing Medical Education Office at the Geisinger Health System now has 3 ways for you to **renew** your ACLS certification. You can still register for the Danville campus based classes or you can register for renewal methods that may be more convenient for you. Please see the brief descriptions below of the options available to you.

1. **LIVE COURSES**: The live (didactic) courses are given on a regular basis. You can enroll on line at [www.geisinger/education/cme.edu](http://www.geisinger/education/cme.edu) or by calling 570-271-6692 between 7:30-4:00. All participants will receive the current AHA materials: ACLS Manual, ACLS Handbook plus your provider card upon completion.
2. **CD-ROMS**: You can register for the CD-ROM “Heart Code” program by calling the Geisinger CME Office at 570-271-6692. All participants will receive a packet containing the instructional materials on a CD-ROM as well as instructions for completing the program. Your skills will be tested on SimMan® located in the Emergency Medicine Department. You will need to schedule an appointment.

The fee for each program option is \$150.00 effective for programs after January 1, 2005.

For more information, please consult the CME web site or call us!
