Clear Your Browser History:
## Clearing your Browser History can solve many problems

1. For Internet Explorer, from the top menu bar select Tools (you may also hold down the Alt key and tap the letter T) and select Delete browsing history…
- For other browsers, google 'Clear browsing history from (Firefox, Safari, Chrome)'

2. Select ONLY
- Temporary Internet files and website files
- Cookies and website data

3. Click Delete

4. To clear your history each time you leave a site, from Tools, select Internet Options, and on the General tab, under Browsing history, check the Delete browsing history on exit box

5. Close your browser completely – all tabs, etc. and re-open

6. Navigate to https://geisinger.org/emrlink
