

Addendum 2023

Evidence of Coverage, Annual Notice of Change and Summary of Benefits

Information about changes to your 2023 coverage

Last August, President Joe Biden signed the Inflation Reduction Act. That changed what you may pay for your Medicare Part B prescription drug coverage. This document describes the changes, so be sure to keep it for reference.

Beginning Saturday, April 1: If a Part B drug price has increased at a faster rate than inflation, you'll pay less coinsurance for certain Part B drugs. However, you'll never pay more than what is listed in your 2023 Evidence of Coverage document.

Beginning July 1: Members who use insulin through an insulin pump won't pay more than a \$35 copay for a one-month supply of covered insulin.
