Many of these preventive services are covered with no member cost sharing when obtained from a participating/preferred doctor, unless otherwise noted. If your doctor provides medical services during your preventive care visit that are not included in the preventive care list, these items will be considered under your standard medical plan coverage. This means you may be responsible for cost sharing. Please see your plan materials for specific details about your plan coverage.

This document is intended as an easy-to-read summary. Benefits, limitations and exclusions are provided in accordance with the benefit documents and applicable riders under which a member is enrolled. This managed care plan may not cover all your health care expenses. Read your Subscription Certificate and riders carefully to determine which health care services are covered.

These preventive health services are based on recommendations from the U.S. Preventive Services Task Force (A and B recommendations), the Advisory Committee on Immunization Practices (ACIP) for immunizations, and the American Academy of Pediatrics' Periodicity Schedule of the Bright Futures Recommendations for Pediatric Preventive Health Care. For additional information on immunizations, visit the immunization schedule section of www.cdc.gov.
