Specialty drugs and devices are frequently used to treat complex medical conditions. These products generally require close monitoring, complex handling, and often require education regarding administration. In order to ensure our members are receiving the support they need to successfully manage their conditions, we have partnered with MedImpact Direct Specialty to provide these medications.

Use of the MedImpact Direct Specialty is mandated for our Commercial members when medication will be self-administered by the member at home. Use of the Specialty Pharmacy Drug Program is not mandatory if the physician elects to buy and bill the medication. Medicare Part D members are not mandated to use the MedImpact Direct Specialty, but they may elect to do so. Medicare Part D members are not limited to specific specialty pharmacies, unless the manufacturer limits access to a medication through a specialty pharmacy. Medicare eligible Part B medications which are not bought and billed by a physician are not eligible for Part B coverage.

For formulary information for self-administered medications, please visit: [https://www.geisinger.org/-/media/onegeisinger/files/pdfs/shared%20pdfs/formulary-updates/Commercial\\_Formulary](https://www.geisinger.org/-/media/onegeisinger/files/pdfs/shared%20pdfs/formulary-updates/Commercial_Formulary)

If a prior authorization is required, contact the Pharmacy Department.
