Policy: MP039
Section: Medical Benefit Policy
Subject: Home Uterine Activity Monitor

I. Policy: Home Uterine Activity Monitor

II. Purpose/Objective:
To provide a policy of coverage regarding Home Uterine Activity Monitor

III. Responsibility:
A. Medical Directors
B. Medical Management

IV. Required Definitions
1. Attachment – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. Exhibit – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. Devised – the date the policy was implemented.
4. Revised – the date of every revision to the policy, including typographical and grammatical changes.
5. Reviewed – the date documenting the annual review if the policy has no revisions necessary.

V. Additional Definitions
Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
b. provided for the diagnosis, and the direct care and treatment of the Member's condition, illness disease or injury;
c. in accordance with current standards of good medical treatment practiced by the general medical community.
d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

Medicaid Business Segment
Medical Necessity shall mean a service or benefit that is compensable under the Medical Assistance Program and if it meets any one of the following standards:

(i) The service or benefit will, or is reasonably expected to, prevent the onset of an illness, condition or disability.
(ii) The service or benefit will, or is reasonably expected to, reduce or ameliorate the physical, mental or development effects of an illness, condition, injury or disability.
(iii) The service or benefit will assist the Member to achieve or maintain maximum functional
capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for members of the same age.

DESCRIPTION:
The home uterine activity monitor is a device intended to provide early detection of pre-term labor in members at high risk of developing pre-term labor or pre-term birth.

INDICATION: Home Uterine Monitoring **REQUIRES PRIOR MEDICAL DIRECTOR OR DESIGNEE AUTHORIZATION**

Home uterine activity is provided to Health Plan members experiencing pre-term or threatened pre-term labor with documented cervical changes, in current pregnancy.

LIMITATIONS:
- High Tech Perinatal Home Services will be approved if ordered by a specialist in Fetal Maternal Medicine for members currently being treated for preterm labor.

Referrals received from physicians other than specialists in Fetal Maternal Medicine must be reviewed by a Plan Medical Director.

CODING ASSOCIATED WITH: Home Uterine Activity Monitor

The following codes are included below for informational purposes and may not be all inclusive. Inclusion of a procedure or device code(s) does not constitute or imply coverage nor does it imply or guarantee provider reimbursement. Coverage is determined by the member specific benefit plan document and any applicable laws regarding coverage of specific services. Please note that per Medicare coverage rules, only specific CPT/HCPCS Codes may be covered for the Medicare Business Segment. Please consult the CMS website at [www.cms.gov](http://www.cms.gov) or the local Medicare Administrative Carrier (MAC) for more information on Medicare coverage and coding requirements.

Revenue Codes

551  Skilled Nursing Visit – Skilled nursing visit whereby a registered nurse assesses, teaches and implements the plan of care established by the ordering and servicing provider. Approval for 551 is made based on a case by case basis beyond one visit/month which is included in the Home Uterine Monitoring Service.

581  Home Uterine Monitoring With Tocolytic Therapy (Other Home Health Visit Charge) – The home service includes one home skilled nursing visit per month to provide instruction and follow up, home fetal monitoring equipment rental, transmission and follow up of telephonic home monitoring twice daily, nurse telephonic follow up twice daily, and 24 hour nursing on call service. Members needing pharmacological management with subcutaneous tocolytic medications are managed concurrently with the home uterine uterine activity monitor. Tocolytic management includes all drug cost and in home delivery (not mail shipped) including prefilled syringes, tubing, subcutaneous needle insertion sets, pump rental and supplies. This service is provided in lieu of an inpatient hospital admission.

589  Other Skilled Nursing Charge/Home Uterine Monitoring Without Tocolytic Therapy – The home service includes one home skilled nursing visit per month to provide instruction and follow up, home fetal monitoring equipment rental, transmission and follow up of telephonic home monitoring twice daily, nurse telephonic follow up twice daily, and 24 hour nursing on call service. This service is provided in lieu of an inpatient hospital admission.
