Policy: Hyperbaric Oxygen Therapy

II. Purpose/Objective:
To provide a policy of coverage regarding Hyperbaric Oxygen Therapy

III. Responsibility:
A. Medical Directors
B. Medical Management Department

IV. Required Definitions
1. Attachment – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. Exhibit – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. Devised – the date the policy was implemented.
4. Revised – the date of every revision to the policy, including typographical and grammatical changes.
5. Reviewed – the date documenting the annual review if the policy has no revisions necessary.

V. Additional Definitions
Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
b. provided for the diagnosis, and the direct care and treatment of the Member's condition, illness disease or injury;
c. in accordance with current standards of good medical treatment practiced by the general medical community;
d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

Medicaid Business Segment
Medically Necessary — A service, item, procedure, or level of care that is necessary for the proper treatment or management of an illness, injury, or disability is one that:
• Will, or is reasonably expected to, prevent the onset of an illness, condition, injury or disability.
- Will, or is reasonably expected to, reduce or ameliorate the physical, mental or developmental effects of an illness, condition, injury or disability.
- Will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for Members of the same age.

**DESCRIPTION:**
Hyperbaric Oxygen Therapy (HBO) is a systemic treatment in which the patient is placed inside a pressurized chamber and breathes 100% oxygen under increased atmospheric pressure.

**INDICATIONS:**

**Primary Treatment**
- Decompression sickness
- Carbon monoxide poisoning (acute) if any of the following are present:
  - Transient or prolonged unconsciousness
  - Abnormal neurological signs
  - Cardiovascular dysfunction
  - Severe acidosis
- Air or Gas Embolism (acute)
- Gas gangrene
- Cyanide poisoning (acute)
- Progressive necrotizing infections
- Acute peripheral artery insufficiency
- Emergency treatment of compromised skin graft/flap refractory to maximized wound care
- Chronic refractory osteomyelitis

**Adjunctive Treatment (in addition to standard therapeutic measures, or when other treatments alone are not providing positive outcomes)**
- Acute traumatic peripheral ischemia, crush injuries and suturing of severed limbs
- Osteoradionecrosis
- Soft tissue radionecrosis
- Chronic refractory osteomyelitis
- Actinomycosis
- Problem diabetic wound management
  - Documented evidence of type 1 or 2 diabetes with lower extremity wound, grade III or higher, when no measurable signs of healing are achieved for at least 30 consecutive days, and after an adequate course of standard wound care* has been completed.

*The components of standard wound care for diabetic wounds includes:
  - Assessment of vascular status and correction of any vascular problem in the affected limb if possible; and
  - Debridement of devitalized tissue; and
  - Maintenance of a clean, moist bed of granulation tissue with appropriate moist dressings; and
  - Optimization of glucose control and nutritional status; and
  - Appropriate off-loading; and
  - Appropriate and necessary treatment to resolve any infection, if present.

**EXCLUSIONS:**
The following indications lack sufficient scientific evidence of efficacy, and therefore are considered experimental, investigational or unproven and are NOT COVERED. The list of such indications includes, but is not limited to:

- Acute traumatic brain injury
- Spinal cord injury
- Severe or refractory perineal Crohn’s disease
- Acute thermal burns
- Carbon tetrachloride poisoning
- Cerebrovascular accident (thrombotic or embolic)
- Fracture healing
- Hydrogen sulfide poisoning
- Intra-abdominal or intracranial abscess
• Pseudomembranous colitis
• Radiation myelitis
• Sickle cell crisis
• Multiple sclerosis
• Myofascial pain syndrome
• Retinal artery insufficiency
• Cerebral palsy
• Necrotizing arachnidism associated with brown recluse spider bites
• Autism (unless otherwise mandated by Act 62)*
• Chronic non-diabetic wounds
• Demyelinating disease
• Migraine or cluster-type headache

For more information, please refer to MP 224 – Topical Oxygenation

Medicaid Business Segment:
Any requests for services, that do not meet criteria set in the PARP, may be evaluated on a case by case basis

Note: A complete description of the process by which a given technology or service is evaluated and determined to be experimental, investigational or unproven is outlined in MP 15 - Experimental Investigation or Unproven Services or Treatment.

CODING ASSOCIATED WITH: Hyperbaric oxygen therapy
The following codes are included below for informational purposes and may not be all inclusive. Inclusion of a procedure or device code(s) does not constitute or imply coverage nor does it imply or guarantee provider reimbursement. Coverage is determined by the member specific benefit plan document and any applicable laws regarding coverage of specific services. Please note that per Medicare coverage rules, only specific CPT/HCPCS Codes may be covered for the Medicare Business Segment. Please consult the CMS website at www.cms.gov or the local Medicare Administrative Carrier (MAC) for more information on Medicare coverage and coding requirements.

99183 Physician attendance and supervision of hyperbaric oxygen therapy, per session
A4575: Topical Hyperbaric Oxygen Chamber, disposable
G0277 Hyperbaric oxygen under pressure, full body chamber, per 30-minute interval

LINE OF BUSINESS:
Eligibility and contract specific benefit limitations and/or exclusions will apply. Coverage statements found in the line of business specific benefit document will supercede this policy. For Medicare, applicable LCD’s and NCD’s will supercede this policy. For PA Medicaid Business segment, this policy applies as written.

This policy will be revised as necessary and reviewed no less than annually.

Devised: 10/99

Revised: 01/02, 02/02 (remove prior auth requirement), 02/03 (add definition); 06/03 (coding, added indications), 06/04 (Coding); 07/09 (autism ref); 07/10 (exclusion); 10/11 (indications, exclusions added), 10/12 (removed limitations)
Geisinger Health Plan may refer collectively to health care coverage sponsors Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company, unless otherwise noted. Geisinger Health Plan is part of Geisinger, an integrated health care delivery and coverage organization.

Coverage for experimental or investigational treatments, services and procedures is specifically excluded under the member’s certificate with Geisinger Health Plan. Unproven services outside of an approved clinical trial are also specifically excluded under the member’s certificate with Geisinger Health Plan. This policy does not expand coverage to services or items specifically excluded from coverage in the member’s certificate with Geisinger Health Plan. Additional information can be found in MP015 Experimental, Investigational or Unproven Services.

Prior authorization and/or pre-certification requirements for services or items may apply. Pre-certification lists may be found in the member’s contract specific benefit document. Prior authorization requirements can be found at https://www.geisinger.org/health-plan/providers/ghp-clinical-policies

Please be advised that the use of the logos, service marks or names of Geisinger Health Plan, Geisinger Quality Options, Inc. and Geisinger Indemnity Insurance Company on a marketing, press releases or any communication piece regarding the contents of this medical policy is strictly prohibited without the prior written consent of Geisinger Health Plan. Additionally, the above medical policy does not confer any endorsement by Geisinger Health Plan, Geisinger Quality Options, Inc. and Geisinger Indemnity Insurance Company regarding the medical service, medical device or medical lab test described under this medical policy.
