I. Policy: Hippotherapy

II. Purpose/Objective:
To provide a policy of coverage regarding Hippotherapy

III. Responsibility:
A. Medical Directors
B. Medical Management Department

IV. Required Definitions
1. Attachment – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. Exhibit – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. Devised – the date the policy was implemented.
4. Revised – the date of every revision to the policy, including typographical and grammatical changes.
5. Reviewed – the date documenting the annual review if the policy has no revisions necessary.

V. Additional Definitions
Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
b. provided for the diagnosis, and the direct care and treatment of the Member's condition, illness disease or injury;
c. in accordance with current standards of good medical treatment practiced by the general medical community;
d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

Medicaid Business Segment
Medical Necessity shall mean a service or benefit that is compensable under the Medical Assistance Program and if it meets any one of the following standards:

(i) the service or benefit will, or is reasonably expected to, prevent the onset of an illness, condition or disability.
(ii) the service or benefit will, or is reasonably expected to, reduce or ameliorate the physical, mental or development effects of an illness, condition, injury or disability.
(iii) the service or benefit will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for members of the same age.

DESCRIPTION:
Hippotherapy is a form of therapeutic horseback riding or equestrian therapy in which the multidimensional swinging motion of a walking horse is passively conveyed to the patient, providing tactile, vestibular, olfactory, proprioceptive and visual stimulation. Hippotherapy is theorized to benefit patients with neuromuscular disorders such as cerebral palsy, multiple sclerosis, head injury, and stroke by strengthening leg and abdominal muscles, stimulating normal patterns of movement, and improving posture and balance. Contact with horses is also theorized to improve self-confidence, neurologic functioning, sensory processing, and provide beneficial emotional and motivational stimulation.

EXCLUSIONS:
The Plan does NOT provide coverage for Hippotherapy (unless otherwise mandated under Act 62, or other state or federal mandate)* as a treatment of patients with cerebral palsy with spastic quadripareisis or other types of motor dysfunction or any other indication because it is considered experimental, investigational or unproven. The Geisinger Technology Assessment Committee evaluated this technology and concluded that there is insufficient evidence in the peer-reviewed published medical literature to establish the effectiveness of this test on health outcomes when compared to established tests or technologies.

*For additional information please see MP 232 - Autism Spectrum Disorder – Evaluation and Medical Management

Note: A complete description of the process by which a given technology or service is evaluated and determined to be experimental, investigational or unproven is outlined in MP 15 - Experimental Investigational or Unproven Services or Treatment.

CODING ASSOCIATED WITH: Hippotherapy
The following codes are included below for informational purposes and may not be all inclusive. Inclusion of a procedure or device code(s) does not constitute or imply coverage nor does it imply or guarantee provider reimbursement. Coverage is determined by the member specific benefit plan document and any applicable laws regarding coverage of specific services. Please note that per Medicare coverage rules, only specific CPT/HCPCS Codes may be covered for the Medicare Business Segment. Please consult the CMS website at www.cms.gov or the local Medicare Administrative Carrier (MAC) for more information on Medicare coverage and coding requirements.

S8940  Equestrian/Hippotherapy, per session
97139  Unlisted therapeutic procedure

LINE OF BUSINESS:
Eligibility and contract specific benefits, limitations and/or exclusions will apply. Coverage statements found in the line of business specific benefit document will supersede this policy. For Medicare, applicable LCD’s and NCD’s will supercede this policy. For PA Medicaid Business segment, this policy applies as written.

REFERENCES:

This policy will be revised as necessary and reviewed no less than annually.

Devised: 9/03

Revised: 9/04; 9/06, 9/09 (Act 92 language)

Reviewed: 9/05; 9/07, 9/08, 9/10, 9/11, 9/12, 9/13, 9/14, 9/15, 9/16, 8/17
