I. Policy: Reduction Mammaplasty

II. Purpose/Objective:
To provide a policy of coverage regarding Reduction Mammaplasty

III. Responsibility:
A. Medical Directors
B. Medical Management

IV. Required Definitions
1. Attachment – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. Exhibit – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
3. Devised – the date the policy was implemented.
4. Revised – the date of every revision to the policy, including typographical and grammatical changes.
5. Reviewed – the date documenting the annual review if the policy has no revisions necessary.

V. Additional Definitions
Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

- a. appropriate for the symptoms and diagnosis or treatment of the Member’s condition, illness, disease or injury;
- b. provided for the diagnosis, and the direct care and treatment of the Member’s condition, illness disease or injury;
- c. in accordance with current standards of good medical treatment practiced by the general medical community.
- d. not primarily for the convenience of the Member, or the Member’s Health Care Provider; and
- e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member’s condition, and the Member cannot receive safe or adequate care as an outpatient.

Medicaid Business Segment
Medically Necessary — A service, item, procedure, or level of care that is necessary for the proper treatment or management of an illness, injury, or disability is one that:

- Will, or is reasonably expected to, prevent the onset of an illness, condition, injury or disability.
- Will, or is reasonably expected to, reduce or ameliorate the physical, mental or developmental effects of an illness, condition, injury or disability.
• Will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for Members of the same age.

DESCRIPTION:
Reduction mammaplasty is a surgical procedure to remove substantial breast tissue (skin and underlying glandular tissue).

INDICATIONS:
Breast reduction of the non-affected breast following mastectomy to achieve symmetry is considered medically necessary and covered in accordance with the Women’s Health and Cancer Rights Act (WHCRA).

For members enrolled in product lines in which reduction mammaplasty for the treatment of complications secondary to macromastia is not specifically excluded, PRIOR AUTHORIZATION BY A PLAN MEDICAL DIRECTOR OF DESIGNEE IS REQUIRED.

CRITERIA:
For those members enrolled in product lines in which reduction mammaplasty for the treatment of complications secondary to macromastia is not specifically excluded, the following criteria will be used to determine eligibility for coverage.

a. Physician provided documentation of a diagnosis of macromastia; and
b. Severe chronic skin breakdown unresponsive to medical management; or
c. Documented chronic pain due to macromastia defined by all of the following criteria
   • Pain that affects the activities of daily living for a minimum of 6 months
   • Documentation in the medical record to involve one of the following:
     o Upper back pain and/or
     o Neck/shoulders pain
     o Acquired kyphosis on X-ray due to weight of the breasts
     o Upper extremity paraesthesia
     o Ulceration or pain/grooving from cutting of bra straps
   and

c. For members 40 years of age or older, a mammogram that was negative for cancer has been completed within the year prior to the planned reduction mammaplasty; and

d. Average weight of tissue planned to be removed in each breast, is above the 22nd percentile* on the Modified Schnur Sliding Scale based on the patient’s body surface area (BSA)**. (See Attachment A for Listing)

**To calculate body surface area (BSA):

\[
BSA \ (\text{m}^2) = \left( \frac{[\text{height (cm)} \times \text{weight (kg)}]}{3600} \right)^{1/2}
\]

*NOTE:
If the proposed total grams of tissue is less than the 22nd percentile but greater than the 5th percentile on the Modified Schnur scale, clinical documentation of circumstances to support the proposed tissue removal must be submitted for determination of medical necessity.

If the proposed total grams of tissue is less than the 5th percentile on the Modified Schnur scale, the procedure will be considered to be cosmetic and therefore NOT COVERED.

For treatment of gynecomastia, see MP055 Mastectomy for Gynecomastia.

EXCLUSIONS:
Breast reduction to improve appearance without improving a functional/physiologic impairment is considered cosmetic and NOT COVERED.

Reduction mammaplasty to correct an anatomical congenital anomaly without improving or restoring physiologic function is considered cosmetic and NOT COVERED.
Medicaid Business Segment:
Any requests for services, that do not meet criteria set in the PARP, may be evaluated on a case by case basis.

CODING ASSOCIATED WITH: REDUCTION MAMMAPLASTY
The following codes are included below for informational purposes and may not be all inclusive. Inclusion of a procedure or device code(s) does not constitute or imply coverage nor does it imply or guarantee provider reimbursement. Coverage is determined by the member specific benefit plan document and any applicable laws regarding coverage of specific services. Please note that per Medicare coverage rules, only specific CPT/HCPCS Codes may be covered for the Medicare Business Segment. Please consult the CMS website at www.cms.gov or the local Medicare Administrative Carrier (MAC) for more information on Medicare coverage and coding requirements.
