V. Additional Definitions

Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

- a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
- b. provided for the diagnosis and the direct care and treatment of the Member's condition, illness disease or injury;
- c. in accordance with current standards good medical treatment practiced by the general medical community;
- d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
- e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient

Medicaid Business Segment

Medically Necessary — A service, item, procedure, or level of care compensable under the Medical Assistance program that is necessary for the proper treatment or management of an illness, injury, or disability is one that:

- i. Will, or is reasonably expected to, prevent the onset of an illness, condition, injury or disability.
- ii. Will, or is reasonably expected to, reduce or ameliorate the physical, mental or developmental effects of an illness, condition, injury or disability.
- iii. Will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for Members of the same age.

DESCRIPTION:

Vimizim (elosulfase alfa) acts to provide the exogenous enzyme GALNS that is taken up into the lysosomes and increases the catabolism of the GAGs KS and C6S.

CRITERIA FOR USE: Requires Prior Authorization by Medical Director or Designee

Vimizim (elosulfase alfa) will be considered medically necessary for all lines of business when all of the following criteria are met:

- Prescription is written by a biochemical geneticist or metabolic physician; **AND**
- Medical record documentation of:
 - Mucopolysaccharidosis IVA (MPS IVA, Morquio syndrome) including genetic testing confirmation; **AND**
 - Age 5 years or greater; **AND**
 - Insured individual's weight dated within one month of the request; **AND**
 - Baseline 6-minute walking distance and objective measures that will be used to judge clinical impact; **AND**
 - Once weekly dosing

AUTHORIZATION DURATION

Initial approval will be for six (6) months. Subsequent approvals will also be for six (6) months. For reauthorization, the following criteria must be met:

Medical record documentation of:

- Improvement in six-minute walking distance from baseline or other objective evidence of benefit from the use of Vimizim; **AND**
- Absence of hypersensitivity reaction(s) to the medication; **AND**
- Insured individual's weight dated within one (1) month of the request.

Note: For Medicaid (GHP Family), any requests for services that do not meet criteria set in the PARP will be evaluated on a case-by-case basis.

LINE OF BUSINESS:

Eligibility and contract specific benefit limitations and/or exclusions will apply. Coverage statements found in the line of business specific benefit document will supersede this policy.

This policy will be revised as necessary and reviewed no less than annually.
