

Policy: MBP 219.0

Section: Medical Benefit Pharmaceutical Policy

Subject: Fetroja (cefiderocol)

I. Policy:

Fetroja (cefiderocol)

II. Purpose/Objective:

To provide a policy of coverage regarding Fetroja (cefiderocol)

III. Responsibility:

- A. Medical Directors
- B. Medical Management
- C. Pharmacy Department

IV. Required Definitions

1. Attachment – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
2. Exhibit – a supporting document developed and maintained in a department other than
3. the department requiring/authoring the policy.
4. Devised – the date the policy was implemented.
5. Revised – the date of every revision to the policy, including typographical and grammatical changes.
6. Reviewed – the date documenting the annual review if the policy has no revisions necessary.

V. Additional Definitions

Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

- a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
- b. provided for the diagnosis and the direct care and treatment of the Member's condition, illness disease or injury;
- c. in accordance with current standards good medical treatment practiced by the general medical community;
- d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
- e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient

Medicaid Business Segment

Medical Necessity shall mean a service or benefit that is compensable under the Medical Assistance Program and if it meets any one of the following standards:

- (i) the service or benefit will, or is reasonably expected to, prevent the onset of an illness, condition or disability.
- (ii) the service or benefit will, or is reasonably expected to, reduce or ameliorate the physical, mental or development effects of an illness, condition, injury or disability.
- (iii) the service or benefit will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for members of the same age

DESCRIPTION:

Fetroja (cefiderocol) is a siderophore cephalosporin. A catechol side chain promotes formation of chelated complexes with ferric iron, allowing use of iron transport systems to deliver cefiderocol across the outer membrane of gram-negative bacilli. The cephalosporin moiety binds to penicillin-binding proteins which in turn inhibits the final transpeptidation step of peptidoglycan synthesis in bacterial cell walls, thus inhibiting cell wall biosynthesis.

CRITERIA FOR USE: Requires Prior Authorization by Medical Director or Designee

Fetroja (cefiderocol) will be considered medically necessary when ALL of the following criteria are met:

- Prescription is written by or in consultation with Infectious Disease **AND**
 - Medical record documentation that the member is greater than or equal to 18 years of age **AND**
 - Medical record documentation of one of the following:
 - Medical record documentation of a diagnosis of complicated urinary tract infections (cUTI), including pyelonephritis caused by susceptible Gram-negative microorganisms: *Escherichia coli*, *Klebsiella pneumoniae*, *Proteus mirabilis*, *Pseudomonas aeruginosa*, or *Enterobacter cloacae* complex **OR**
 - Medical record documentation of a diagnosis of hospital-acquired bacterial pneumonia (HABP) OR Ventilator-associated bacterial pneumonia (VABP), caused by susceptible Gram-negative microorganisms: *Acinetobacter baumannii* complex, *Escherichia coli*, *Klebsiella pneumoniae*, *Pseudomonas aeruginosa*, *Serratia marcescens*, or *Enterobacter cloacae* complex
- AND**
- Medical record documentation of culture and sensitivity showing the patient's infection is not susceptible to alternative antibiotic treatments OR a documented history of previous intolerance to or contraindication to other antibiotics shown to be susceptible on the culture and sensitivity.

AUTHORIZATION DURATION: Approval will be given for a duration of 14 days

QUANTITY LIMITS: In Darwin, 8 vials per day

LINE OF BUSINESS:

Eligibility and contract specific benefit limitations and/or exclusions will apply. Coverage statements found in the line of business specific benefit document will supersede this policy.

This policy will be revised as necessary and reviewed no less than annually.

Devised: 7/21/20

Revised: 3/16/21 (HABP, VABP)
