V. Additional Definitions

Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

- a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
- b. provided for the diagnosis and the direct care and treatment of the Member's condition, illness disease or injury;
- c. in accordance with current standards good medical treatment practiced by the general medical community;
- d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
- e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient

Medicaid Business Segment

Medically Necessary — A service, item, procedure, or level of care compensable under the Medical Assistance program that is necessary for the proper treatment or management of an illness, injury, or disability is one that:

- i. Will, or is reasonably expected to, prevent the onset of an illness, condition, injury or disability.
- ii. Will, or is reasonably expected to, reduce or ameliorate the physical, mental or developmental effects of an illness, condition, injury or disability.
- iii. Will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for Members of the same age.

DESCRIPTION:

Cosela (trilaciclib) is a highly potent, selective, and reversible cyclin-dependent kinase 4 and 6 (CDK4/6) inhibitor. Hematopoietic stem and progenitor cell (HSPC) proliferation is dependent on CDK4/6 activity. Through CDK4/6 inhibition, trilaciclib transiently induces HSPC G1 cell cycle arrest, preventing the cells from proliferating in the presence of cytotoxic chemotherapy and thus resulting in myelopreservation.

CRITERIA FOR USE: Requires Prior Authorization by Medical Director or Designee

Cosela (trilaciclib) will be considered medically necessary for all lines of business when ALL of the following criteria are met:

- Prescription written by or in consultation with a hematologist or oncologist **AND**
- Medical record documentation of age greater than or equal to 18 years of age **AND**
- Medical record documentation of a diagnosis of extensive-stage small cell lung cancer (ES-SCLC) **AND**
- Medical record documentation that the member is currently taking a platinum/etoposide-containing regimen or topotecan-containing regimen

AUTHORIZATION DURATION: Initial approval will be for 6 months and subsequent approvals will be for 6 months.

Note: For Medicaid (GHP Family), any requests for services that do not meet criteria set in the PARP will be evaluated on a case-by-case basis.

LINE OF BUSINESS:

Eligibility and contract specific benefit limitations and/or exclusions will apply. Coverage statements found in the line of business specific benefit document will supersede this policy.
