I. Policy: Enuresis Alarm

II. Purpose/Objective:
   To provide a policy of coverage regarding nocturnal enuresis alarm

III. Responsibility:
   A. Medical Directors
   B. Medical Management

IV. Required Definitions
   1. Attachment – a supporting document that is developed and maintained by the policy writer or department requiring/authoring the policy.
   2. Exhibit – a supporting document developed and maintained in a department other than the department requiring/authoring the policy.
   3. Devised – the date the policy was implemented.
   4. Revised – the date of every revision to the policy, including typographical and grammatical changes.
   5. Reviewed – the date documenting the annual review if the policy has no revisions necessary.

V. Additional Definitions
Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

   a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
   b. provided for the diagnosis, and the direct care and treatment of the Member's condition, illness disease or injury;
   c. in accordance with current standards of good medical treatment practiced by the general medical community.
   d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
   e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

Medicaid Business Segment
Medical Necessity shall mean a service or benefit that is compensable under the Medical Assistance Program and if it meets any one of the following standards:

   (i) The service or benefit will, or is reasonably expected to, prevent the onset of an illness, condition or disability.
   (ii) The service or benefit will, or is reasonably expected to, reduce or ameliorate the physical, mental or development effects of an illness, condition, injury or disability.
   (iii) The service or benefit will assist the Member to achieve or maintain maximum functional
DESCRIPTION:
Primary nocturnal enuresis is defined as involuntary loss of urine during sleep in members who have never achieved a sustained period of nighttime continence. Secondary nocturnal enuresis is defined as loss of urine during sleep in a member who has achieved a sustained period of bladder control during the night. The use of enuretic alarms has been shown to provide the best long-term cure rate and the lowest relapse rate of treatments for primary nocturnal enuresis.

INDICATIONS:
Primary nocturnal enuresis in pediatric members who meet all of the following:

- Member is 7 years of age or older; and
- Member has experienced continuous, persistent bedwetting defined as;
  a minimum of 3 bedwetting events/week in the past month; or
  a minimum of 1 bedwetting event/week for one year; and
- Member does not exhibit daytime incontinence; and
- Physical or organic causes have been ruled out (e.g., renal disease, neurological disease, infection, etc.)

LIMITATIONS:
Coverage will be subject to the member having a Durable Medical Equipment benefit. Any and all limitations of the applicable subscription certificate, summary plan document and/or rider will apply. Enuresis alarms will be authorized by the Plan.

EXCLUSIONS:
The Plan does NOT provide coverage for any diagnosis other than primary nocturnal enuresis because it is considered experimental, investigational or unproven. There is insufficient evidence in the peer-reviewed published medical literature to establish the effectiveness of this modality on health outcomes when compared to established tests or technologies.

Note: A complete description of the process by which a given technology or service is evaluated and determined to be experimental, investigational or unproven is outlined in MP 15 - Experimental Investigational or Unproven Services or Treatment.

CODING ASSOCIATED WITH Nocturnal Enuresis Alarm:
The following codes are included below for informational purposes and may not be all inclusive. Inclusion of a procedure or device code(s) does not constitute or imply coverage nor does it imply or guarantee provider reimbursement. Coverage is determined by the member specific benefit plan document and any applicable laws regarding coverage of specific services. Please note that per Medicare coverage rules, only specific CPT/HCPCS Codes may be covered for the Medicare Business Segment. Please consult the CMS website at www.cms.gov or the local Medicare Administrative Carrier (MAC) for more information on Medicare coverage and coding requirements.

HCPCS Code:
- E1399 Durable medical equipment, miscellaneous
- S8270 Enuresis alarm, using auditory buzzer and/or vibration device

LINE OF BUSINESS:
Eligibility and contract specific benefits, limitations and/or exclusions will apply. Coverage statements found in the line of business specific benefit document will supersede this policy. For Medicare, applicable LCD’s and NCD’s will supercede this policy. For PA Medicaid Business segment, this policy applies as written.
