V. Additional Definitions

Medical Necessity or Medically Necessary means Covered Services rendered by a Health Care Provider that the Plan determines are:

- a. appropriate for the symptoms and diagnosis or treatment of the Member's condition, illness, disease or injury;
- b. provided for the diagnosis, and the direct care and treatment of the Member's condition, illness disease or injury;
- c. in accordance with current standards of good medical treatment practiced by the general medical community.
- d. not primarily for the convenience of the Member, or the Member's Health Care Provider; and
- e. the most appropriate source or level of service that can safely be provided to the Member. When applied to hospitalization, this further means that the Member requires acute care as an inpatient due to the nature of the services rendered or the Member's condition, and the Member cannot receive safe or adequate care as an outpatient.

Medicaid Business Segment

Medically Necessary — A service, item, procedure, or level of care that is necessary for the proper treatment or management of an illness, injury, or disability is one that:

- Will, or is reasonably expected to, prevent the onset of an illness, condition, injury or disability.
- Will, or is reasonably expected to, reduce or ameliorate the physical, mental or developmental effects of an illness, condition, injury or disability.
- Will assist the Member to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Member and those functional capacities that are appropriate for Members of the same age

DESCRIPTION:

Hearing aids are devices that amplify and deliver speech and other sounds at levels equivalent to that of normal speech and conversation. Hearing aids can be categorized as air conduction, bone conduction and middle ear hearing aids. They are also categorized by the means with which they process incoming signals, such as analog, digitally programmable, and digital signal processing.

INDICATIONS:

The following criteria will apply for Medicaid Business Segment:

Monaural or Binaural hearing aid:

- A medical clearance signed and dated by the physician within six months prior to dispensing the hearing aid; and
- Documentation of communication need and a statement that the member is able to utilize the aid appropriately; and
- Audiogram completed within the past six months, signed, dated by the audiologist, along with the recommendation for hearing aid documenting a hearing loss of 25 dB HL or greater at frequency of at least 500 Hz in the ear(s) to be aided for members under the age of 21. An auditory evoked potential test will be accepted in lieu of an audiogram in individuals unable to participate in a traditional audiogram either due to age or infirmity.
- significant vocational, educational demands, or other needs for normal development activity as documented by the ordering provider.

LIMITATIONS:

Services are to be provided by a contracted provider who is a licensed hearing aid dealer or licensed audiologist affiliated with a hearing center.
