

STUDENT NAME: _____

Students are required to take USMLE Step 1 Exam on or before June 15, 2020. This deadline is set so that Step 1 scores are reported in a timely manner for students to enter the MD3 year. Delaying Step 1 may jeopardize entering the M3 curriculum, it may result in a student needing to take a leave of absence, may have implications for residency opportunities, and may also have Financial Aid implications.

I am requesting a delay in taking USMLE Step 1 Exam for the following reasons (include your last two practice tests with dates and scores):

I developed a study plan with a CLE representative, and it is described below. It includes the date I am taking USMLE Step 1 exam:

CLE Representative Date

Financial Aid Office Representative Date

Associate Dean for Student Affairs Representative Date

I understand the implications and conditions for the approval of my request to delay taking the USMLE Step 1 exam and agree to comply with all the terms set forth above.

Student Signature Date

Final approval from the Director of Academic Success (DAS) Date

SES notified by DAS _____ Registrar notified by DAS _____ Bursar notified by DAS _____
