

The road to better vision

Robby and Elizabeth Settle

My husband Robby had cataracts in both eyes. Since he's a truck driver, and our family trucking and freight businesses rely on his driving, his eyes are pretty important to the both of us. But we had no health insurance at the time. Through Geisinger's **Mission Cataract** program, he was able to have the condition in both of his eyes repaired and was back on the road in no time.

If it weren't for Geisinger and his eyesight-saving surgery, he wouldn't be able to drive, and our freight and trucking business wouldn't have been able to thrive as they have over the past few years. Because of the ophthalmology doctors at Geisinger, we've been able to be prosperous. As the good Lord says, "You reap what you sow," and we wanted to give back, so we chose to support the **Ophthalmology Fund** at Geisinger.

We're so very thankful to Geisinger and now that we are able to afford health insurance, we of course chose Geisinger Health Plan!
