**Positive Practices Committee (PPC)** is comprised of state, regional, and county workgroups whose focus is to explore and expand local capacity, training, resources, cross system collaboration, and how to meet the needs of the local community, particularly for those individuals who are considered most challenging and those with a dual diagnosis (MH/MR).

The committee’s mission is “to improve people’s lives by increasing local capacity to provide supports to individuals with mental health and behavioral challenges by promoting the guiding principles of positive approaches, everyday lives and the recovery movement through the Department of Public Welfare system collaboration.”

PPC meetings will be held on the fourth Tuesday of every other month (February, April, June, August and October - there will be no December meeting) and hosted at various locations.

These PPC meetings are open to providers of behavioral health and intellectual disability services. Case reviews and updates are always welcomed. Registration is not required.
