

One Call Transfer Center Process: 570-214-9104

One convenient phone call connects you to a team of experienced nurses 24/7 at Geisinger Placement Services (GPS). GPS will ensure a rapid transfer of your patient to an appropriate Geisinger location:

- Rapid identification of STEMIs, Strokes, Traumas, and critically ill patients.
- Coordinating a phone conversation between the referring and accepting physicians.
- Assigning the appropriate hospital bed.
- Coordination of LifeFlight services.

Process steps

When Initiating a Call, You Will Need:

- Basic patient demographics (Name, DOB)
- Referring facility and provider information (Name, Phone Number)
- Desired destination facility and service
- Reason for transfer (including diagnosis and mechanism of injury)

After Acceptance to a Geisinger Facility

- GPS will need demographic sheet to be faxed to 570-271-5541
- All pertinent medical information to be sent with patient. Please include all scans on disc.
- GPS nurse will gather additional clinical information from nurse at referring facility.
- GPS nurse will contact referring facility with bed assignment and nursing unit phone number.
- Referring facility will arrange ambulance transportation. GPS can arrange LifeFlight services
