

Geisinger 21-Day COVID-19 Test Results

Results are displayed at a patient-level for period 1/4/2022 - 1/24/2022

This report contains the count of individuals who have been tested by Geisinger and tested positive at least once in the past 21 days. Many patients are tested multiple times. This report is not a count of tests but a count of individuals. Patients with at least one positive test are counted as "positive."

This report contains the results of COVID-19 tests performed by Geisinger. For many ZIP codes, Geisinger performs only a small fraction of total testing.

Therefore, the information below should NOT be assumed to represent the overall amount of COVID-19 activity in a community.

More comprehensive information is available from the [Pennsylvania Department of Health](#).

ZIP Code	Primary Area	Patients Tested	Positive Results	% Positive	Age distribution of positive patients			
					0-17	18-24	25-64	65+
16602	Altoona	5	3	60%	-	-	3	-
16611	Alexandria	12	6	50%	3	-	3	-
16651	Houtzdale	26	12	46%	-	-	9	3
16652	Huntingdon	76	21	28%	-	3	13	5
16666	Osceola Mills	56	26	46%	7	4	15	-
16669	Petersburg	23	12	52%	5	-	7	-
16677	Sandy Ridge	5	3	60%	3	-	-	-
16686	Tyrone	53	17	32%	11	-	6	-
16801	State College	413	140	34%	43	9	74	14
16803	State College	312	112	36%	38	13	57	4
16820	Aaronsburg	7	3	43%	-	-	3	-
16822	Beech Creek	85	40	47%	5	4	27	4
16823	Bellefonte	786	336	43%	109	20	177	30
16826	Blanchard	42	17	40%	-	3	10	4
16827	Boalsburg	115	44	38%	10	5	20	9

This report includes COVID-19 PCR (polymerase chain reaction) tests—not antibody tests—that were performed by Geisinger Medical Laboratories in the specified time period. Turnaround time for testing at Geisinger (from test collection to test result) has averaged below 1 day.

For the most part, the reported ZIP code is the individual's permanent residence (which may differ from a temporary residence, as in the case of college students living away from home).

For many ZIP codes, Geisinger performs only a small fraction of total testing and to protect the privacy of those individuals who test positive, only ZIP codes with at least 3 positive patient results will appear on this report. Please check with the [Pennsylvania Department of Health](#) for more comprehensive information.

This report includes COVID-19 PCR (polymerase chain reaction) tests—not antibody tests—that were performed by Geisinger Medical Laboratories in the specified time period. Turnaround time for testing at Geisinger (from test collection to test result) has averaged below 1 day.

For the most part, the reported ZIP code is the individual's permanent residence (which may differ from a temporary residence, as in the case of college students living away from home).

For many ZIP codes, Geisinger performs only a small fraction of total testing and to protect the privacy of those individuals who test positive, only ZIP codes with at least 3 positive patient results will appear on this report. Please check with the [Pennsylvania Department of Health](#) for more comprehensive information.

Geisinger 21-Day COVID-19 Test Results

Results are displayed at a patient-level for period 1/4/2022 - 1/24/2022

This report contains the count of individuals who have been tested by Geisinger and tested positive at least once in the past 21 days. Many patients are tested multiple times. This report is not a count of tests but a count of individuals. Patients with at least one positive test are counted as "positive."

This report contains the results of COVID-19 tests performed by Geisinger. For many ZIP codes, Geisinger performs only a small fraction of total testing.

Therefore, the information below should NOT be assumed to represent the overall amount of COVID-19 activity in a community.

More comprehensive information is available from the [Pennsylvania Department of Health](#).

ZIP Code	Primary Area	Patients Tested	Positive Results	% Positive	Age distribution of positive patients
