

## Geisinger 21-Day COVID-19 Test Results

Results are displayed at a patient-level for period 2/2/2021 - 2/22/2021

This report contains the count of individuals who have been tested by Geisinger and tested positive at least once in the past 21 days. Many patients are tested multiple times. This report is not a count of tests but a count of individuals. Patients with at least one positive test are counted as "positive."

This report contains the results of COVID-19 tests performed by Geisinger. For many ZIP codes, Geisinger performs only a small fraction of total testing.

Therefore, the information below should NOT be assumed to represent the overall amount of COVID-19 activity in a community.

More comprehensive information is available from the [Pennsylvania Department of Health](#).
