This report contains the count of individuals who have been tested by Geisinger and tested positive at least once in the past 21 days. Many patients are tested multiple times. This report is not a count of tests but a count of individuals. Patients with at least one positive test are counted as "positive."

This report contains the results of COVID-19 tests performed by Geisinger. For many ZIP codes, Geisinger performs only a small fraction of total testing.

Therefore, the information below should NOT be assumed to represent the overall amount of COVID-19 activity in a community.

More comprehensive information is available from the Pennsylvania Department of Health.

This report includes COVID-19 PCR (polymerase chain reaction) tests—not antibody tests—that were performed by Geisinger Medical Laboratories in the specified time period. Turnaround time for testing at Geisinger (from test collection to test result) has averaged below 1 day.

For the most part, the reported ZIP code is the individual’s permanent residence (which may differ from a temporary residence, as in the case of college students living away from home).

For many ZIP codes, Geisinger performs only a small fraction of total testing and to protect the privacy of those individuals who test positive, only ZIP codes with at least 3 positive patient results will appear on this report.

Please check with the Pennsylvania Department of Health for more comprehensive information.
Geisinger 21-Day COVID-19 Test Results
Results are displayed at a patient-level for period 7/20/2021 - 8/9/2021

This report contains the count of individuals who have been tested by Geisinger and tested positive at least once in the past 21 days. Many patients are tested multiple times. This report is not a count of tests but a count of individuals. Patients with at least one positive test are counted as "positive."
