

Because your health is always top of mind.

Geisinger

How we're watching out for your wellness:

- **Staying apart means staying safe.** We're limiting seating throughout the building. You may see fewer seats or signs on chairs to keep people at a healthy distance.
- **Important ask: Wear a mask.** Covering your mouth and nose keeps you and others from spreading germs.
- **Keeping as clean as can be.** Our staff are hard at work keeping our facilities clean and safe.
- **Encouraging good hygiene.** Be sure to wash your hands frequently. Don't share food, drink or personal items.
- **Watching out for symptoms.** If you feel sick, please stay home. Make sure to report any symptoms.

We're glad you're here. And we'll keep you safe.
