*Use of the Specialty Pharmacy Drug Program is mandatory only when medication will be self-administered by the member at home. Use of the Specialty Pharmacy Drug Program is not mandatory if the physician elects to buy and bill the medication.

NOTES:

- Voluntary Specialty Medications are those that can either be dispensed by a contracted specialty pharmacy or a prescriber can obtain, administer and bill GHP Family for the cost of the medications.
- If GHP Family is the secondary insurance, “mandatory” specialty pharmacy does not apply
