

CareConnect+

Informed and personable triage for
your Geisinger Health Plan patients.

A quick call to **844-OPTION0 (844-678-4660)** can keep them out of the hospital.

Do you have a Geisinger Health Plan (GHP) patient who could benefit from a home visit or chronic case management? Someone with:

A recent ED visit or hospital admission with ongoing issues? **Our complex case managers can help with discharge plans and care coordination.**

Needs that meet hospital admission criteria? **Geisinger's Hospital at Home program supports hospital-level service in the comfort of your patient's home.**

An acute chronic condition? **Geisinger at Home provides acute and routine home visits and interventions to keep your patient out of the hospital.**

Urgent needs greater than what a typical walk-in clinic can address, but that don't require hospital care? **ConvenientCare+ offers walk-in care plus added services, like IV, lab and imaging, for more serious conditions that aren't emergencies.**

Give CareConnect+ a call. We'll help you find the best path forward for your GHP patients.

What is CareConnect+?

- CareConnect+ Command Center is a centralized health management hub that healthcare providers can call to refer a GHP patient to the appropriate level of care in their community and avoid ED and hospital stays. Geisinger has an array of sophisticated services for treating acute medical conditions.
- CareConnect+ can also help identify options for your patient, including care coordination, case management, patient education, links to community resources and many other health management services Geisinger offers.

What we're asking of you

- Identify patients with GHP coverage who could benefit from additional help.
- Know what resources are available to assist them, including:
 - [Geisinger at Home](#)
 - [Hospital at Home](#)
 - [Complex Case Management](#)
 - [ConvenientCare +](#)
- Call CareConnect+ at **844-678-4660**, and we'll take care of the rest.
