

# Billing and Reimbursement

Hospital outpatient departments

Payment for providers who are reimbursed for hospital outpatient services using the Ambulatory Payment Classifications (APCs) payment methodology will be reimbursed for those services on the Medicare approved APC code list for hospital outpatient departments (HOPDs).

Participating hospital providers are required to report a corresponding CPT/HCPCS code when reporting revenue codes listed in the following table.

Failure to report the HCPCS code will result in a denial, which may require resubmission.

HCPCS codes 99281 through 99285 and 99291 are examples of appropriate codes to report in conjunction with the following table of revenue codes. Codes such as 99213 and 99214, which represent professional evaluation and management services, should be reported only by the physician.

Revenue code 761 should be reported with a corresponding HCPCS code when reporting treatment room services in an outpatient setting.

Revenue code 760 and/or 769 should not be used for this purpose.

**Revenue codes requiring a corresponding CPT®/HCPCS code when reported in an outpatient hospital setting:**

| Revenue Code | Description                 |
|--------------|-----------------------------|
| 0261         | Infusion pump               |
| 0274         | Prosthetic/orthotic devices |
| 0300         | Laboratory                  |
| 0301         | Laboratory                  |
| 0302         | Laboratory                  |
| 0303         | Laboratory                  |
| 0304         | Laboratory                  |
| 0305         | Laboratory                  |
| 0306         | Laboratory                  |
