**GEISINGER HEALTH PLAN**

# **2022 member formulary**

**List of covered drugs**

**Marketplace medication benefit**

**Geisinger**

## General Formulary Information

**This formulary is applicable to the prescription coverage provided with all Marketplace plans offered by Geisinger Health Plan and Geisinger Choice.**

We encourage you to contact our Pharmacy Customer Service Team if you have any questions about this information or the type of benefit in which you are enrolled. Also, please refer to your benefit documents, as formulary exclusions may differ based on the specific benefit.

This formulary was designed to be a useful tool for prescription medication coverage. It lists the medications covered by your plan. Medications are listed in this formulary by medication category; individual medications can be found by using the index at the back.

Please note that you can also view the formulary online at [www.geisinger.org/health-plan](http://www.geisinger.org/health-plan).

## Pharmacy Customer Service Team Contact Information

Telephone: (800) 988-4861 or (570)-271-5673; TDD/TTY 711

Fax: 570-271-5610

Mailing address:

Geisinger Health Plan

Pharmacy Department

Internal Mail Code 24-10

100 North Academy Avenue

Danville, PA 17822

## Tiers

The Marketplace formulary assigns each prescription medication to one of 6 different tiers, each representing a set copay or coinsurance amount. The copay or coinsurance amount will depend on your prescription medication rider. Additional medications, other than those included in this formulary, may be covered under your plan. The definitions of the copay or coinsurance levels are listed below:

- Tier 1 (Generic Preferred) - Includes select generic medications and has the lowest copayment. Prior authorization is usually not necessary for medications in this tier.
- Tier 2 (Generic Non-Preferred) - Includes most generic medications. Prior authorization is usually not necessary for medications in this tier.
- Tier 3 (Brand Preferred) – Includes certain formulary brand name medications with no generic equivalent. Prior authorization may be necessary for medications in this tier.
- Tier 4 (Brand Non-Preferred) – Includes certain formulary brand name medications, brand name medications with a generic equivalent (unless higher cost-sharing applies), and specialty medications. Non-formulary brand name medications, if approved, will apply tier 4 cost sharing. Prior authorization may be necessary for medications in this tier.
- Tier 5 (Specialty) – Includes high-cost medications, often used to treat rare conditions, and may require special handling or training for use. A maximum of a 34-day supply may be dispensed for medications in this tier unless a shorter duration is specified in the formulary or in your specific benefit documents.
- Tier 0 – These medications have no copayment/coinsurance.

The Plan maintains sole discretion of assigning medications to tiers and moving medications from one tier to another. Several factors are considered when assigning medications to tiers. These factors include but are not limited to:

- Availability of a generic equivalent
- Absolute cost of a medication
- Cost of the medication relative to other medications in the same therapeutic class
- Availability of over-the-counter alternatives
- Clinical and economic factors

Please note: A medication may change in tier status without notice due to immediate generic availability or changes in medication availability in the marketplace.

**A few things you should remember when using this formulary and your prescription benefit:**

- All prescriptions must be filled at a participating pharmacy.
- You will pay the applicable copay, coinsurance, or deductible when you receive the prescription.
- Most brand name medications with a generic equivalent require prior authorization. Some medications on the formulary require prior authorization or step therapy which your provider may request through our Pharmacy Customer Service Team.
- If you require medications not listed on this formulary, your provider may request an exception through our Pharmacy Customer Service Team. Those items listed as specific exclusions are not available through the exception process. Non-formulary medications requiring prior authorization will be available at the Tier 4 copayment/coinsurance level.
- Some medications and diabetic supplies may be restricted to a specific manufacturer, vendor or supplier and may be subject to quantity limits.
- Quantity limits may apply to certain medications.
- Brand and generic Triptan medications for migraines have a quantity limit of 16 units per 28 days across all products and dosage forms (sumatriptan, rizatriptan, naratriptan, almotriptan, frovatriptan, eletriptan, zolmitriptan, and sumatriptan/naproxen).
- Insulin syringes and lancets are covered at Tier 3.
- Most non-prescription (over-the-counter) medications are not covered unless required by health care reform legislation.
- Note that if certain conditions are met, some medications may be covered with no copay/coinsurance due to health care reform legislation. Please contact the Pharmacy Customer Service Team for more information.
- Many compounded prescriptions require prior authorization review, which your provider may request through our Pharmacy Customer Service Team. If an exception is approved, you will be charged at the Tier 2 copay level if the primary ingredient is generic or the Tier 4 copay level if the primary ingredient is brand. If your request is denied, the medication will be excluded from coverage under your prescription medication benefits.
- All prescriptions for a total morphine equivalent dose (MED) of 50 or greater will require prior authorization. Short acting opioid prescriptions will require prior authorization if more than a 5-day supply if required for an adult or more than a 3-day supply for a member under 18 years of age.

## Specialty Vendor Medication Program

- Certain medications require the use of a contracted specialty pharmacy vendor for purchase. Please contact the Pharmacy Customer Service Team for additional information on the program and a complete list of the medications included. Note that a maximum of a 34-day supply may be dispensed for specialty vendor medications unless a shorter duration is specified in the formulary or in your specific benefit documents.

## Using this formulary

- Medication names with QL in the Requirements/Limits column have quantity limits. Other day supply limits may apply.
- Medication names followed by PA in the Requirements/Limits column require prior authorization.
- Medication names followed by ST in the Requirements/Limits column have step therapy requirements (Please see Step Therapy List below).
- Medication names followed by SP in the Requirements/Limits column require the use of a specialty pharmacy vendor.
- This formulary is accurate as of July 1, 2022 and is subject to change. Any additions or deletions to the formulary throughout the year may be found in the following quarterly publications: “Member Update” for members and “Healthcare Provider Update” for providers. The most up-to-date source for formulary information is the online formulary search available at [www.geisinger.org/health-plan.com](http://www.geisinger.org/health-plan.com).
- **Restrictions in medication availability may result from use of a formulary**

Certain prescription medications listed in this formulary may not be covered for everyone. Your prescription medication benefits are dependent upon the coverage selected by you or your employer. Please be aware that if you choose to obtain a non-formulary medication, you may be required to pay the full price of that medication. For information about your specific prescription medication benefits, please contact the Pharmacy Customer Service Team.

## Quantity Limits

- Quantity limits are listed in the Requirements/Limits Column.
- Note that non-formulary medications in the same class/category as formulary drugs with quantity limits will have the same quantity limits applied if approved for coverage.
- A maximum of a 34-day supply may be dispensed for medications in Tier 5 and medications provided by a specialty vendor unless a shorter duration is specified in the formulary or in your specific benefit documents.

## Step Therapy List

For details regarding step therapy requirements please contact the Pharmacy Customer Service Team at (800) 988-4861 or (570) 271-5673.

## **What is a medication formulary?**

A medication formulary is a continually updated list of prescription medications. It represents the medications currently covered based upon the clinical judgment of the Pharmacy and Therapeutics Committee, which is made up of pharmacists and physicians. (The formulary is continually updated due to the high number of medications currently on the market, as well as the continuous introduction of new medications.) This committee thoroughly reviews medical literature to first determine which medications are likely to produce the best results for patients. Then, if two or more medications produce the same clinical results, elements like cost and ease of use are considered.

A well-developed formulary enhances quality of patient care by encouraging physicians to prescribe medications that are safe, effective, and likely to achieve the best possible outcome for the patient. When you use a formulary medication, it is considered a “covered” medication and you pay your particular copay or coinsurance for that medication.

The Plan recognizes that, in some situations, you may not respond well to a given formulary medication, or you may have an allergy or other condition that warrants the use of a non-formulary medication. An exception process exists for these special instances. Your physician may initiate a request for a formulary exception by contacting our Pharmacy Service Team. Your request will be reviewed, including review of pertinent medical records, treatment and laboratory data. We respond to such requests within 48 hours of receiving all necessary information. If an exception is approved, you will be charged at the Tier 4 copay level. If your request is denied, the medication will be excluded from coverage under your prescription medication benefits.

## **Formulary exclusions**

There are certain medications that your plan will not cover under any circumstance. These are called exclusions.

Some examples of excluded medications include those that are:

- Available over-the-counter
- Used for experimental, investigational, or unproven therapies
- Used for weight loss and weight management
- Life-style medications
- Used for cosmetic purposes
- Used for erectile dysfunction

Other exclusions may apply and are subject to change, so you should contact the Pharmacy Customer Service Team when you are unsure whether a medication is covered.

## Health Care Reform

The Affordable Care Act (ACA) was signed into law on March 23, 2010. Under the ACA, the government created “provisions,” or laws, that health insurers must adapt to, which change health benefits for consumers. These changes include the expansion of preventive services, including vaccinations, prescription drugs, and more. In accordance with the ACA requirements, and subject to any applicable limitations of your pharmacy plan, the following preventive medications will be covered with no cost-sharing under the prescription drug benefit:

- Aspirin Products – Low dose (81 mg) aspirin products
  - For the primary prevention of cardiovascular disease and colorectal cancer in adults ages 50-59 years who have a 10 percent or greater 10-year cardiovascular risk, are not at increased risk for bleeding, have a life expectancy of at least 10 years and are willing to take low-dose aspirin daily for at least 10 years.
  - As preventive medication after 12 weeks of gestation in women who are at high risk for preeclampsia.
- Contraceptives – Brands with no generic and generic products (other contraceptives may be covered under the medical benefit)
  - For females.
- Bowel Preparations for Colonoscopy – Brands with no generic and generic products
  - In preparation of a screening colonoscopy for members 45-75 years of age.
- Breast Cancer Prevention – Generic anastrozole, exemestane, letrozole, raloxifene and tamoxifen
  - For women who are at increased risk of breast cancer and at low risk for adverse medication effects, clinicians should offer to prescribe risk-reducing medications, such as anastrozole, exemestane, letrozole, raloxifene, or tamoxifen.
- Folic Acid Supplements – Generic folic acid 0.4 mg and 0.8 mg tablets
  - All women who are planning or capable of pregnancy.
- Fluoride Supplements – Fluoride drops and chewable tablets
  - Oral fluoride supplementation starting at 6 months for children whose water supply is fluoride sufficient up to age 5 years for the prevention of dental caries.
- HIV Pre-Exposure Prophylaxis – Apretude 600 mg/3 mL injection, Descovy 200-25 mg tablet, emtricitabine/tenofovir 200-300 mg tablet, and Vocabria 30 mg tablet
- Iron Supplements – Pediatric Iron supplements
  - For members 6 – 12 months of age.
- Smoking Cessation Products – Brands with no generic and generic products
  - Two, 90-day treatment courses per benefit year.
- Statin Preventive Medication – low- to moderate-dose generic products
  - For adults without a history of cardiovascular disease (CVD) (i.e., symptomatic coronary artery disease or ischemic stroke) for the prevention of CVD events and mortality when all of the following criteria are met: 1) they are ages 40 to 75 years; 2) they have 1 or more CVD risk factors (i.e., dyslipidemia, diabetes, hypertension, or smoking); and 3) they have a calculated 10-year risk of a cardiovascular event of 10% or greater. Identification of dyslipidemia and calculation of 10-year CVD event risk requires universal lipids screening in adults ages 40 to 75 years.
- Vaccinations – Preventive vaccines are covered for \$0 cost sharing based on appropriate age and Food and Drug Administration (FDA) approved uses.

Formulary, oral chemotherapy agents will have no cost sharing based on the Pennsylvania Oral Anticancer Treatment Access Law.

Please note: For details about how these medications may be covered under your specific plan please contact the Pharmacy Customer Service Team. A prescription is required to process any claim for preventive care medications or products under the pharmacy plan, including over-the-counter medications.

## **Formulary development**

When deciding whether or not a medication should be included in the formulary, the Health Plan's Pharmacy and Therapeutics Committee carefully considers each medication for coverage or non-coverage in order to ensure safety and effectiveness in the medications being prescribed. This information is then shared with participating providers for review and feedback. Based upon the gathered information and provider feedback, the Pharmacy and Therapeutics Committee will determine a medication's inclusion or exclusion in the formulary. For the specific criteria used to determine a medication's inclusion or exclusion in this formulary, please contact the Pharmacy Customer Service Team.

## **What are generics?**

When a company develops a new medication, it receives a patent that protects the medication company's right to be the only manufacturer of that medication for a certain period of time. This means that no generic can be manufactured during that time. After that patent expires, other companies can then make the same medication and sell it in its generic form. The generic form of a medication has the same active ingredients, the same strength, and the same dosage as the brand name medication. The inactive ingredients (which provide texture, shape and color) may be different, which is why a generic typically looks different than its brand name counterpart. Generic medications are usually less expensive than brand name medications but are just as safe and effective. This is because generic manufacturers have lower advertising costs and greater competition from other generic manufacturers. Additionally, the U.S. Food and Drug Administration regulates all pharmaceuticals, including generics, to assure quality, strength, purity and potency.

**Your prescription plan is based on coverage of generic medications. Whenever possible, you should use a cost-effective generic medication.**

---

## Notes for providers

Formulary review process: Medications selected for inclusion in the formulary are chosen in consideration of effectiveness, safety and overall value. Evaluation for formulary inclusion is based on formalized selection criteria to determine the most optimal benefit to members. These criteria include but are not limited to:

- Medication name/dosage form
- Medication class/pharmacology
- FDA-approved indications
- Adverse reactions
- Clinical evidence of safety and efficacy
- Recommendations of national agencies and organizations
- Therapeutic equivalence
- Cost analysis

The criteria are reviewed by the Health Plan Pharmacy and Therapeutics Committee, which is comprised of pharmacists and participating physicians in active clinical practice from various specialties. The medication is then reviewed and evaluated by clinicians in particular specialties for additional feedback. The feedback is discussed by the Pharmacy and Therapeutics Committee prior to finalizing a decision on formulary status. To be included, the medication must offer a distinct advantage over existing formulary medications in the same therapeutic class. Specifically, the medication must demonstrate such attributes as:

- A distinct or unique therapeutic feature
- Greater efficacy, proven in clinical trials, over other medications in the same therapeutic category
- An improved dosing schedule, safety profile or cost-effectiveness over existing formulary medications
- If there are comparable therapeutic agents, additional analysis may be considered. These factors include:
  - Member satisfaction
  - Cost analysis
  - Contract terms and conditions
  - Market share analysis
  - Patent life assessment
  - Utilization management
  - Consumer advertising
  - Per member per month costs

**Generic substitution policy:** The Health Plan prescription benefits are generically based. Generic substitution will occur for those medications included in the “Approved Medication Products with Therapeutic Equivalence Evaluations,” also known as “The Orange Book,” published by the U.S. Department of Health and Human Services. Generic medications, which have an equivalent rating by these standards, are generally provided under the member’s prescription medication benefit. The Health Plan may also elect to include only one brand-name medication in the formulary even if the medication is marketed by more than one company, or if the brand name medication does not significantly differ from the generic medication.

**Prior authorization:** To promote the most appropriate utilization, select medications may require prior authorization by the Health Plan to be eligible for coverage under the member's prescription benefit. The Pharmacy and Therapeutics Committee determines prior authorization criteria. In order for a member to receive coverage for a medication requiring prior authorization, the prescribing physician must obtain prior authorization by contacting the Health Plan Pharmacy Department at the address, telephone, or fax number above. Submission of medical documentation is required.

**Step Therapy:** Some medications may require that other medications be tried prior to or concomitantly with the requested medication. The pharmacy claims system looks for a record of the required medications and if they are not found, medical documentation must be submitted showing use of these medications or rationale for skipping the step therapy medications.

**Non-formulary medications:** The formulary is designed to meet most therapeutic needs of the population served by the Health Plan. Occasionally, because of allergy, therapeutic failure, or a specific diagnostic-related need, formulary medications may not meet the special needs of an individual member. In these special instances, the prescribing physician may make requests to the Health Plan Pharmacy Department for non-formulary or restricted medications. The prescribing physician will receive written documentation and/or a verbal response from the Health Plan Pharmacy Department regarding the request.

**Formulary addition requests:** Requests for changes or additions, comments, and suggestions for the formulary are welcome and can be made by written request to the Health Plan Pharmacy Department.

# Discrimination is against the law

Geisinger Health Plan, Geisinger Quality Options, Inc., and Geisinger Indemnity Insurance Company (the "Health Plan") comply with applicable federal civil rights laws and do not discriminate on the basis of race, color, national origin, age, disability, sex, gender identity, or sexual orientation. The Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, sex, gender identity, or sexual orientation.

The Health Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, call the Health Plan at 800-447-4000 or TTY: 711.

If you believe that the Health Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, sex, gender identity, or sexual orientation, you can file a grievance with:

Civil Rights Grievance Coordinator  
Geisinger Health Plan Appeals Department  
100 North Academy Avenue, Danville, PA 17822-3220  
Phone: 866-577-7733, TTY: 711  
Fax: 570-271-7225  
GHPCivilRights@thehealthplan.com

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Civil Rights Grievance Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services  
200 Independence Avenue SW., Room 509F  
HHH Building, Washington, DC 20201  
Phone: 800-368-1019, 800-537-7697 (TDD)

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.

ATTENTION: If you speak a language other than English, language assistance services, free of charge, are available to you. Call 800-447-4000 or TTY: 711.

ATENCIÓN: si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al 800-447-4000 (TTY: 711).

注意：如果您使用繁體中文，您可以免費獲得語言援助服務。請致電 800-447-4000 (TTY : 711)。

CHÚ Ý: Nếu bạn nói Tiếng Việt, có các dịch vụ hỗ trợ ngôn ngữ miễn phí dành cho bạn. Gọi số 800-447-4000 (TTY: 711).

ВНИМАНИЕ: Если вы говорите на русском языке, то вам доступны бесплатные услуги перевода. Звоните 800-447-4000 (телетайп: 711).

ACHTUNG: Wenn Sie Deutsch sprechen, stehen Ihnen kostenlos sprachliche Hilfsdienstleistungen zur Verfügung. Rufnummer: 800-447-4000 (TTY: 711).

주의: 한국어를 사용하시는 경우, 언어 지원 서비스를 무료로 이용하실 수 있습니다. 800-447-4000 (TTY: 711) 번으로 전화해 주십시오.

ATTENZIONE: In caso la lingua parlata sia l'italiano, sono disponibili servizi di assistenza linguistica gratuiti. Chiamare il numero 800-447-4000 (TTY: 711).

ملحوظة: إذا كنت تتحدث اذكر اللغة، فإن خدمات المساعدة اللغوية تتوافر لك بالمجان. اتصل برقم 800-447-4000 (رقم هاتف الصم والبكم: 711).

ATTENTION : Si vous parlez français, des services d'aide linguistique vous sont proposés gratuitement. Appelez le 800-447-4000 (ATS : 711).

ACHTUNG: Wenn Sie Deutsch sprechen, stehen Ihnen kostenlos sprachliche Hilfsdienstleistungen zur Verfügung. Rufnummer: 800-447-4000 (TTY: 711).
