List of covered drugs

General formulary information

This formulary is applicable to the 4 Tier Prescription Medication Benefit plans offered by Geisinger Health Plan for Fede4ral Employee Health Benefits (FEHB) members.

Contact our Pharmacy Customer Service Team if you have any questions about this information or the type of benefit you have. Also refer to your benefit documents, as formulary exclusions may differ based on the specific benefit.

This formulary is a useful tool for prescription medication coverage. It lists the medications covered by your plan. Medications are listed in this formulary by medication category. You can find individual medications by using the index at the back.

You can also view the formulary online at geisinger.org/health-plan.

Tiers

The 4 Tier benefit assigns each prescription medication to one of four different tiers, each representing a set copay amount. The copay amount will depend on your prescription medication rider. Additional medications, other than those included in this formulary, may be covered under the 4 Tier benefit. The definitions of the copay levels are listed below:

- Tier 1 - Includes most generic medications and has the lowest copayment. Prior authorization is usually not necessary for medications in this tier.
- Tier 2 – Includes certain formulary brand name medications with no generic equivalent and select generic medications. Prior authorization may be necessary for medications in this tier.
- Tier 3 – Includes certain formulary brand name medications and brand name medications with a generic equivalent (unless higher cost-sharing applies). Non-formulary brand name medications, if approved, will apply tier 3 cost sharing. Prior authorization may be necessary for medications in this tier.
- Tier 4 – Includes high-cost medications, often used to treat rare conditions, and may require special handling or training for use. A maximum of a 34-day supply may be dispensed for medications in this tier unless a shorter duration is specified in the formulary or in your specific benefit documents.

The plan maintains sole discretion of assigning medications to tiers and moving medications from one tier to another. Several factors are considered when assigning medications to tiers. These factors include but are not limited to:

- Availability of a generic equivalent
- Absolute cost of a medication
- Cost of the medication relative to other medications in the same therapeutic class
- Availability of over-the-counter alternatives
- Clinical and economic factors

Note: A medication may change in tier status without notice due to immediate generic availability or changes in medication availability in the marketplace.

A few things to remember when using this formulary and your prescription benefit:

- All prescriptions must be filled at a participating pharmacy. You may only use a non-participating pharmacy if a participating pharmacy is not available. You must pay cash at non-participating pharmacies and submit the necessary documentation to the Pharmacy Customer Service Team for reimbursement to be considered.
- Except for those medications designated as specialty in the formulary, you may use any participating pharmacy. Geisinger Health Plan will not transfer your prescription without your permission.
- You'll pay the applicable copay, coinsurance or deductible when you receive the prescription. This cost will not exceed the cost of the prescription without insurance.
- Most brand-name medications with a generic equivalent require prior authorization. Some medications on the formulary require prior authorization or step therapy, which your provider can request through our Pharmacy Customer Service Team.
- If you need medications not listed on this formulary, your provider may request an exception through our Pharmacy Customer Service Team. Those items listed as specific exclusions are not available through the exception process. Non-formulary medications requiring prior authorization will be available at the Tier 5 copay/coinsurance level.
- Some medications and diabetic supplies may be restricted to a specific manufacturer, vendor or supplier and may be subject to quantity limits.
- Quantity limits may apply to certain medications.
- Brand and generic triptan medications for migraines have a quantity limit of 16 units per 28 days across all products and dosage forms (sumatriptan, rizatriptan, naratriptan, almotriptan, frovatriptan, eletriptan, zolmitriptan and sumatriptan/naproxen).
- Insulin syringes and lancets are covered at Tier 4.
- Most non-prescription (over-the-counter) medications are not covered unless required by healthcare reform legislation.
- If certain conditions are met, some medications may be covered with no copay/coinsurance due to healthcare reform legislation. Contact the Pharmacy Customer Service Team for more information.
- Many compounded prescriptions require prior authorization review, which your provider can request through our Pharmacy Customer Service Team. If an exception is approved, you'll be charged at the Tier 3 copay level (if the primary ingredient is generic) or the Tier 5 copay level (if the primary ingredient is brand). If your request is denied, the medication will be excluded from coverage under your prescription medication benefits.

- All prescriptions for a total morphine equivalent dose (MED) of 50 or greater will require prior authorization. Short-acting opioid prescriptions will require prior authorization if more than a 10-day supply (if required for an adult) or more than a 5-day supply (if required for a member under 18 years old).
- Members are eligible to receive up to 8 COVID-19 over-the-counter tests per 30 days.

Specialty Vendor Medication Program

- Certain medications require the use of a contracted specialty pharmacy vendor for purchase. Contact the Pharmacy Customer Service Team for more information on the program and a complete list of the medications included. Note that a maximum of a 34-day supply may be dispensed for specialty vendor medications unless a shorter duration is specified in the formulary or in your specific benefit documents.

Using this formulary

- Medications are listed by therapeutic class in the table of contents. You can find an alphabetical index of all medications at the back of the formulary.
- The medication tier is listed in the Drug Tier Column.
- Medication names with AL in the Requirements/Limits column have age limits.
- Medication names with QL in the Requirements/Limits column have quantity limits. Other day supply limits may apply.
- Medication names followed by PA in the Requirements/Limits column require prior authorization.
- Medication names followed by PA NSO in the Requirements/Limits column require prior authorization for new starts only.
- Medication names followed by ST in the Requirements/Limits column have step therapy requirements.
- Medication names followed by SP in the Requirements/Limits column require a specialty pharmacy vendor.
- This formulary is accurate as of January 1, 2027, and is subject to change. You can find any additions or deletions to the formulary throughout the year in the quarterly publications “Member Update” (for members) and “Healthcare Provider Update” (for providers). The most up-to-date source for formulary information is the online formulary search available at geisinger.org/health-plan.com.
- **Restrictions in medication availability may result from use of a formulary.**

Certain prescription medications listed in this formulary may not be covered for everyone. Your prescription medication benefits depend on the coverage selected by you or your employer. If you choose to obtain a non-formulary medication, you may be required to pay the full price of that medication. For information about your specific prescription medication benefits, contact the Pharmacy Customer Service Team.

Quantity limits

- Quantity limits are listed in the Requirements/Limits column.
- Non-formulary medications in the same class/category as formulary drugs with quantity limits will have the same quantity limits applied if approved for coverage.

- A maximum of a 34-day supply may be dispensed for medications in Tier 6 and medications provided by a specialty vendor unless a shorter duration is specified in the formulary or in your specific benefit documents.

Step therapy

For details about step therapy requirements, contact the Pharmacy Customer Service Team at 800-988-4861 or 570-271-5673.

What is a medication formulary?

A medication formulary is a continually updated list of prescription medications. It represents the medications currently covered based on the clinical judgment of the Pharmacy and Therapeutics Committee, which is made up of pharmacists and physicians. (The formulary is continually updated due to the high number of medications currently on the market, as well as the continuous introduction of new medications.) This committee thoroughly reviews medical literature to first determine which medications are likely to produce the best results for patients. Then, if two or more medications produce the same clinical results, elements like cost and ease of use are considered.

A well-developed formulary enhances quality of patient care by encouraging physicians to prescribe medications that are safe, effective and likely to achieve the best possible outcome for the patient. When you use a formulary medication, it is considered a “covered” medication and you pay your particular copay or coinsurance for that medication.

In some situations, you may not respond well to a given formulary medication, or you may have an allergy or other condition that warrants the use of a non-formulary medication. An exception process exists for these special instances. Your physician may initiate a request for a formulary exception by contacting our Pharmacy Service Team. We’ll review your request and any pertinent medical records, treatment and laboratory data. We respond to such requests within 48 hours of receiving all necessary information. If an exception is approved, you’ll be charged at the Tier 3 copay level. If your request is denied, the medication will be excluded from coverage under your prescription medication benefits.

Formulary exclusions

There are certain medications that your plan will not cover under any circumstance. These are called exclusions.

Some examples of excluded medications include those that are:

- Available over-the-counter
- Used for experimental, investigational or unproven therapies
- Used for cosmetic purposes

Other exclusions may apply and are subject to change, so contact the Pharmacy Customer Service Team when you are unsure whether a medication is covered.

Healthcare reform

The Affordable Care Act (ACA) was signed into law on March 23, 2010. Under the ACA, the government created “provisions,” or laws, that health insurers must adapt to, which change health benefits for consumers. These changes include the expansion of preventive services, including vaccinations, prescription drugs and more. In accordance with the ACA requirements, and subject to any applicable limitations of your pharmacy plan, the following preventive medications will be covered with no cost-sharing under the prescription drug benefit:

- Aspirin products – Low-dose (81 mg) aspirin products
    - For the primary prevention of cardiovascular disease and colorectal cancer in adults ages 50–59 who have a 10% or greater 10-year cardiovascular risk, are not at increased risk for bleeding, have a life expectancy of at least 10 years and are willing to take low-dose aspirin daily for at least 10 years.
    - As preventive medication after 12 weeks of gestation in women who are at high risk for preeclampsia.
- Contraceptives – For females
- Bowel preparations for colonoscopy – Brands with no generic and generic products
    - In preparation for a screening colonoscopy for members ages 45–75.
- Breast cancer prevention – Generic anastrozole, exemestane, letrozole, raloxifene and tamoxifen
    - For females who are at increased risk of breast cancer and at low risk for adverse medication effects, clinicians should offer to prescribe risk-reducing medications, such as anastrozole, exemestane, letrozole, raloxifene or tamoxifen.
- Folic acid supplements – Generic folic acid 0.4 mg and 0.8 mg tablets
    - All females who are planning or capable of pregnancy.
- Fluoride supplements – Fluoride drops and chewable tablets
    - Oral fluoride supplementation starting at 6 months for children whose water supply is fluoride sufficient up to age 16 years for the prevention of dental caries.
- HIV pre-exposure prophylaxis – Apretude 600 mg/3 mL injection, Descovy 200 mg/25 mg tablet, emtricitabine/tenofovir 200 mg/300 mg tablet, Vocabria 30 mg tablet, and Yeztugo 463.5 mg/135 mL injection
- Smoking cessation products – Brands with no generic and generic products
    - Two 90-day treatment courses per benefit year.
- Statin preventive medication – generic products
    - For adults ages 40–75 who have 1 or more cardiovascular risk factors (i.e., dyslipidemia, diabetes, hypertension or smoking) and an estimated 10-year risk of a cardiovascular event of 10% or greater.
- Vaccinations – Preventive vaccines are covered for $0 cost-sharing based on appropriate age and Food and Drug Administration (FDA)-approved uses.

Formulary oral chemotherapy agents will have no cost-sharing based on the Pennsylvania Oral Anticancer Treatment Access Law.

For details about how these medications may be covered under your specific plan, contact the Pharmacy Customer Service Team. A prescription is required to process any claim for preventive care medications or products under the pharmacy plan, including over-the-counter medications.

Formulary development

When deciding whether or not a medication should be included in the formulary, Geisinger Health Plan's Pharmacy and Therapeutics Committee carefully considers each medication for coverage or non-coverage in order to ensure safety and effectiveness in the medications being prescribed. This information is then shared with participating providers for review and feedback. Based upon the gathered information and provider feedback, the Pharmacy and Therapeutics Committee will determine a medication's inclusion or exclusion in the formulary. For the specific criteria used to determine a medication's inclusion or exclusion in this formulary, contact the Pharmacy Customer Service Team.

What are generics?

When a company develops a new medication, it receives a patent that protects the medication company's right to be the only manufacturer of that medication for a certain period of time. This means no generic can be manufactured during that time. After that patent expires, other companies can then make the same medication and sell it in its generic form. The generic form of a medication has the same active ingredients, the same strength and the same dosage as the brand-name medication. The inactive ingredients (which provide texture, shape and color) may be different, which is why a generic typically looks different than its brand-name counterpart. Generic medications are usually less expensive than brand-name medications but are just as safe and effective. This is because generic manufacturers have lower advertising costs and greater competition from other generic manufacturers. The U.S. Food and Drug Administration also regulates all pharmaceuticals, including generics, to assure quality, strength, purity and potency.

Your prescription plan is based on coverage of generic medications. Whenever possible, you should use a cost-effective generic medication.

Notes for providers

Formulary review process: Medications selected for inclusion in the formulary are chosen in consideration of effectiveness, safety and overall value. Evaluation for formulary inclusion is based on formalized selection criteria to determine the most optimal benefit to members. These criteria include but are not limited to:

- Medication name/dosage form
- Medication class/pharmacology
- FDA-approved indications
- Adverse reactions
- Clinical evidence of safety and efficacy
- Recommendations of national agencies and organizations
- Therapeutic equivalence
- Cost analysis

The criteria are reviewed by Geisinger Health Plan Pharmacy and Therapeutics Committee, which is comprised of pharmacists and participating physicians in active clinical practice from various specialties. The medication is then reviewed and evaluated by clinicians in particular specialties for additional feedback. The Pharmacy and Therapeutics Committee discusses the feedback before finalizing a decision on formulary status. To be included, the medication must offer a distinct advantage over existing formulary medications in the same therapeutic class. Specifically, the medication must demonstrate such attributes as:

- A distinct or unique therapeutic feature
- Greater efficacy, proven in clinical trials, over other medications in the same therapeutic category
- An improved dosing schedule, safety profile or cost-effectiveness over existing formulary medications
- If there are comparable therapeutic agents, additional analysis may be considered. These factors include:
    - Member satisfaction
    - Cost analysis
    - Contract terms and conditions
    - Market share analysis
    - Patent life assessment
    - Utilization management
    - Consumer advertising
    - Per member per month costs

Generic substitution policy: Geisinger Health Plan prescription benefits are generically based. We'll substitute a generic for those medications included in the "Approved Medication Products with Therapeutic Equivalence Evaluations," also known as "The Orange Book," published by the U.S. Department of Health and Human Services. Generic medications, which have an equivalent rating by these standards, are generally provided under the member's prescription medication benefit. Geisinger Health Plan may also elect to include only one brand-name medication in the formulary even if the medication is marketed by more than one company, or if the brand-name medication does not significantly differ from the generic medication.

Prior authorization: To promote the most appropriate utilization, select medications may require prior authorization by Geisinger Health Plan to be eligible for coverage under the member's prescription benefit. The Pharmacy and Therapeutics Committee determines prior authorization criteria. In order for a member to receive coverage for a medication requiring prior authorization, the prescribing physician must obtain prior authorization by contacting the Geisinger Health Plan Pharmacy Department. Submission of medical documentation is required. Prior authorization can be requested:

- Online at ghp.promptpa.com
- By faxing a completed prior authorization form to 570-300-2122
- By mailing a completed prior authorization form to:
    - Attention Pharmacy Department 24-10
      100 N. Academy Ave.
      Danville, PA 17822
- For certain medications, by calling 800-988-4861

Step therapy: Some medications may require that other medications be tried prior to or concomitantly with the requested medication. The pharmacy claims system looks for a record of the required medications and if they are not found, medical documentation must be submitted showing use of these medications or rationale for skipping the step therapy medications.

Non-formulary medications: The formulary is designed to meet most therapeutic needs of the population served by Geisinger Health Plan. Occasionally, because of allergy, therapeutic failure or a specific diagnostic-related need, formulary medications may not meet the special needs of an individual member. In these special instances, the prescribing physician may make requests to the Geisinger Health Plan Pharmacy Department for non-formulary or restricted medications. The prescribing physician will receive written documentation and/or a verbal response from the Geisinger Health Plan Pharmacy Department regarding the request.

Formulary addition requests: We welcome requests for changes or additions, comments and suggestions for the formulary. You can make a written request to the Geisinger Health Plan Pharmacy Department.
