

2024 CHILDREN'S MIRACLE NETWORK FUNDED ITEMS

Donations to Geisinger Janet Weis Children's Hospital, your local Children's Miracle Network Hospital, are used to fund equipment, programs and services in our health system throughout Pennsylvania. This is how those funds raised in 2023 were used this year to change kids' health and change the future.

System-Wide

Autism evaluation materials — Increases number of evaluations done in pediatric and family practice clinics across Geisinger footprint, and significantly decreases length of time for families and children waiting for assessment.

Camps for special kids, including:

- CampAbility, for kids with health and developmental disabilities
- Camp Dost, for kids with a cancer diagnosis
- Camp Courage, for kids experiencing loss and grief
- Camp Emerge, for families touched by autism spectrum disorder
- Camp Energy, for kids interested in learning healthy lifestyles
- Camp Kydnie, for kids with kidney disease
- Camp Setebaid, for kids living with type 1 diabetes
- Camp Spifida, for kids with Spina Bifida

Child Life programming — Includes playroom and outdoor deck equipment, toys, books, and games, patient celebrations, like treatment milestones or birthdays.

Comfort toys — given to help comfort children that have extraordinary circumstances and are undergoing several procedures and surgeries.

Cribs for Kids — Provides a safe bed for infants born to low-income families.

Launching the Empowerment of Adolescents Program (LEAP) — Engages adolescents and teens with health disparities to take a more active role in their health management, give back to the community and support their peers.

Pediatric Discharge to Home Transportation Voucher Program — assists families that are coming from a far distance and gives them peace of mind that we will be able to get them home without them needing to pay a huge cost

Reach Out and Read — Encourages childhood literacy through gifting new books to kids during annual check-up appointments, and assists pediatricians in their behavioral and developmental screenings of children for each child's age and developmental level.

Steam Roller Ramp & Platform — utilized in physical and occupational therapy sessions to progress sensory processing and development skills.

Superhero capes and masks — provides superhero capes to patients presenting for surgery and helps to alleviate fear and anxiety for our strong and brave kids.

The official registration and financial information of Geisinger Health Foundation (GHF) may be obtained from the Pennsylvania Department of State by calling toll-free, within Pennsylvania 1-800-732-0999. Registration does not imply endorsement. A person may obtain from the New York State Attorney General's Charities Bureau, Attn: FOIL Officer, 120 Broadway, New York, NY 10271, a copy of the last annual report filed by GHF with the attorney general. GHF will also provide, upon request, a description of the programs and activities for which it has requested contributions. GHF may from time to time make contributions to other charitable organizations and, upon request, will provide a list of all such organizations which have received contributions from GHF during the past twelve months.

2024 CHILDREN'S MIRACLE NETWORK FUNDED ITEMS

Central Region

Child Advocacy Center — Forensic interviews, crisis intervention, counseling, medical exams and more for neglected or abused children.

High frequency jet ventilators — Specially designed equipment for extremely low birth weight babies and their tiny airways.

Tecotherm Neo with Disposable Starter Kit — Often called a “cool cap,” this provides therapeutic cooling to infants who have experienced low blood flow to the brain for a dangerous period of time.

Giraffe Omnibed Carestations — Specially designed bed for the smallest infants that provides them with an atmosphere that ideally supports their developmental needs.

Infant delivery room resuscitation warmers — Equipment that aids a safe transition from birth to life outside the womb while maintaining a baby's needs during further intensive neonatal care.

Freestanding Infant Overhead Warmers — Treats early hypothermia in infants who cannot maintain their own temperatures, and allows for warming during phototherapy.

Cuirass Shells — Provides negative pressure ventilation to patients in the PICU.

Portable Pediatric Vision Screener — Provides accurate, timely screening for pediatric patients at well-child checks, school physicals, and more.

Rectal Biopsy System — Allows provider to perform a complete evaluation at the time of the patient's gastroenterology appointment, reducing the need for return appointments.

Voucher and Transportation Programs — Helps to provide accommodations, transportation and meals for families with children admitted to Geisinger Janet Weis Children's Hospital.

NXTGEN Transport Isolette Upgrade — Helps Life Flight® continue to safely transport neonatal and infant populations.

Pediatric Respiratory Therapist Education Navigator — Aids in training and learning excellence for respiratory therapists.

Northeast Region

CMAC Video Laryngoscope — Eases intubation of critical newborns with difficult airways.

JM 105 Jaundice Meter — Improves the process of jaundice screening through being noninvasive, saving our patients unnecessary heel sticks to check bilirubin levels.

Screening Integrity System — Hearing screening equipment for newborns

Bicycle Helmets — Program provides free bicycle helmets for children in need, enhancing injury prevention and fun summer safety.

Digital Wheelchair Scale — Allows our care team to assess weight measurements for all pediatric patients at Geisinger South Wilkes-Barre regardless of mobility or ambulatory issues.

Voucher and Transportation Programs — Helps to provide accommodations, transportation and meals for families with children admitted to Geisinger Wyoming Valley.

Western Region

Panda iRes Infant Warmers — Equipment to keep newborn safe and warm, with full-color display, integrated scale, and other patient care enhancements.
