## **Member Information**

We want our members to be well informed. The following information is available by contacting our Customer Care Team at (800) 504-0443.

- Geisinger Health Plan Board of Directors
- Description of process for Formulary exception
- Provider credentialing process
- Summary of provider reimbursement methodologies
- Procedures for covering experimental drugs/procedures
- Summary of quality assurance program
- Provider List and/or monthly Provider List Updates
- Pharmacy formulary
- Provider privileges at contracted hospitals

## Important information, definitions, and limitations

Case Management: a service where PPO nurses assist members with serious conditions to obtain appropriate support and services so that members can achieve their optimal level of health.

Confidentiality: the PPO's confidentiality policy protects members' privacy of their personal health information including medical records, claims, benefits and other administrative data in all settings. The policy also prohibits sharing personal health information with employers including fully insured employers. However, as a member you always have access to your medical records. Upon enrollment, members sign routine consent forms which allow the PPO to use your information to conduct its business like paying claims and for measurement of data where members identifiers are removed to assure confidentiality. For release of any other personal information, except when required by law, you will be asked to sign a special consent form. A complete copy of the confidentiality policy is available by contacting the Customer Care Team.

Medical Necessity or Medically Necessary: covered services rendered by a health care provider that the insurer determines are: a) appropriate for the symptoms and diagnosis or treatment of the member's condition, illness, disease or injury; b) provided for the diagnosis, or the direct care and treatment of the member's condition, illness, disease or injury; c) in accordance with current standards of medical practice; d) not primarily for the convenience of the member, or the member's health care provider; and e) the most appropriate source or level of service that can safely be provided to the member. When applied to hospitalization, this further means that the member requires acute care as an inpatient due to the nature of the services rendered or the member's condition, and the member cannot receive safe or adequate care as an outpatient.

**Precertification:** the process of calling the PPO to receive authorization for whereby all non-emergency inpatient hospital admissions and designated procedures and services listed in the Subscription Certificate are reviewed and approved for coverage determination by the PPO, prior to the prevision of services.

PCP: primary care physician.

**Retrospective review:** the PPO will complete a post-clinical review when necessary to determine whether or not the treatment met coverage guidelines. Based on this review, claims associated with treatment will be approved or denied.

This document is intended as an easy-to-read summary. Benefits, limitations and exclusions are provided in accordance with the Subscription Certificate and applicable riders under which a member is enrolled. This managed care plan may not cover all your health care expenses. Read your Subscription Certificate and riders carefully to determine which health care services are covered.
